

Light arrow SS13 with frame

Light arrow is a signalling device used for maintenance vehicles, gritters, road sweepers, marking vehicles and trailers, or it can be used for indicating road works and the direction of its drive-around. This light arrow is also described as **Light arrow and cross type B**, warning arrow or signalling arrow. The light arrow can be supplemented by two warning lamps or beacons of different types to improve the warning effect.

- > **13 halogen lamps** ø200mm **EN 12352 L8H**
- > electronics automatically reduce lamp luminous intensity at night and includes reverse polarity protection
- > moreover, the electronics protect the battery from deep discharge by disconnecting the light arrow symbols and possibly also the upper warning lamps depending on the current battery status
- > **remote control with 15m cable** for control and optical check of the function modes
- > the light arrow has the following modes: arrow to the left, arrow to the right and cross
- > all operational information are clearly displayed on the remote control
- > **standard 10m power supply cable** to be installed on the vehicle (upon request, 4m power supply cable with battery clips)
- > light arrow can easily be attached to a profile with a maximal width 40mm
- > The light arrow can be supplemented by two warning lamps or beacons of different types to improve the warning effect.
