

NZSP-1_01 Motor-operated arrow rotation MOS 12V

The arrow rotating device automatically rotates the white arrow on the blue round traffic sign from the cabin of the towing vehicle using a remote control.

- light arrow symbols are controlled by remote control and the white arrow on the blue round traffic sign is rotated automatically by a motor
- in case of failure or emergency, the white arrow can also be set manually
- position of the arrow and operational information are displayed on the remote control with a 15m cable
- electronics protect the motor and the frame construction against overloading using a current-limit protection

TECHNICAL DATA

Power supply	12V=
Current consumption 12V=	max. 5A
Protection degree	IP55
Weight	10kg

ENHANCES ROAD SAFETY AND
PRIMARILY THE SAFETY OF THE
TRAILER OPERATORS
