Road safety first

Traffic cone with halogen lamp DKH-50

Traffic cone with lamp for quick highlighting of an obstacle in traffic (accident, parked vehicle) or current situation in traffic.

- halogen lamp ø200mm EN 12352 L8M
- the lamp is placed on a 50cm high traffic cone
- a handle enables to carry the traffic cone easily
- electronics automatically reduce luminous intensity at night
- moreover, the electronics include reverse polarity protection and protect the battery from deep discharge
- the cone includes a battery placed inside and a recharging connector to connect the charger (the charger is not a part of the delivery of the traffic cone with lamp)
- the battery is recharged via connector without having to be removed from the cone

TECHNICAL DATA

Power supply	12V=
Current consumption 12V=	day 0,32A night 0,20A
Average consumption 12V=	6,24Ah / 24 hours
Flashing frequency	44/min.
Dimensions (WxHxL)	280x700x280mm
Weight	5,4kg

TRAFFIC CONE WITH HALOGEN LAMP KEEPS FLASHING NONSTOP FOR UP TO 26 HOURS
