

Wireless remote control MZS-1_02 RADIO

This wireless remote control enables full control of the warning board just like a wired remote control.

- > all functions and checks are identical with the wired remote control
- > average range up to 100m
- > status of the battery in the wireless control is well indicated, battery life in the remote control about 10 days
- > battery can be charged from the car cigarette lighter of a car with an on-board voltage both 12V and 24V via a charging cable
- > wireless remote control can also be used via cable connected to the warning board, at the same time it recharges the battery
- > it is not necessary to interconnect the wired remote control with the driver's cabin via cable
- > this accessory item is for use with the new product only, but it is possible to add the wireless remote control also to the older product upon request

GIVES GREAT FREEDOM WHEN CONTROLLING THE WARNING BOARD
